## Internships

### Trainee

#### Codeganan Hyderabad

- Trained under experienced senior developers
- Implemented a user-friendly front-end design with HTML, CSS, JavaScript to ensure an excellent user experience
- Used modern development tools such as GitHub to collaborate on code and create version control

## Projects

### Alert system for drowsy driver

Jan 2024 - Apr 2024

- I have worked as a front-end developer and designed the interface of the project
- Tools & technologies used: Machine learning and OpenCv
- This project evaluates the PERCLOS of the driver, detecting the drowsiness of the driver and alerts the driver when it reaches certain PERCLOS measurements

### Crop prediction based on characteristics of agricultural environment

Aug 2023 - Dec 2023

- I have worked as a full-stack developer and designed and developed the project as a part of the team
- Tools & technologies used: Machine Learning and python
- This project suggests the suitable crops to the farmers by evaluating the parameters of the land and weather conditions like soil-fertility ,temperature ,humidity and the seasons etc.

## Certifications

- AWS Academy Graduate : Graded with rank 'B' AWS Academy cloud foundations
- Hacker rank certified Certification for mastering SQL (Basic, Intermediate, Advanced)
